## Profile

• Motivated and knowledgeable professional with hands-on experience in physical infrastructure, networking, and security principles. A self-driven learner, adept at independent study to stay abreast of the latest technological advancements. Demonstrates exceptional multitasking skills and the ability to prioritize tasks effectively, even under pressure.

## Skills

- Networking Protocols and Security principles | Cisco IOS | Juniper Junos | Check Point and Fortinet Firewalls | Nmap | Wire Shark
- Cloud Computing and Security | AWS | Azure AD | Windows Active Directory | Linux | VMware | Docker | Bash Script | Terraform | Git
- CCTV Systems | HikVision | Dahua | Provision-ISR

## Experience

Network infrastructure specialist	Connectcom Communications	2018 -Present
<ul style="list-style-type: none"><li>• Managed the implementation of physical network infrastructure, handling installations of racks, cables, and equipment for various organizations and customers.</li><li>• Configured and installed diverse network equipment, including switches and access points. ensuring seamless functionality tailored to the needs of different customers.</li><li>• Provided technical support and troubleshooting expertise for physical network infrastructure, utilizing diagnostic testing equipment (Fluke tester, OTDR etc.) to identify and resolve connectivity issues promptly. expertise in fiber (multi-mode, single-mode) and copper structured cabling solutions.</li><li>• Developed detailed High-Level Design (HLD) and Low-Level Design (LLD) documentation, encompassing network diagrams and system configurations using tools like Microsoft Visio, draw.io etc.</li><li>• Implemented and optimized IP CCTV systems, ensuring proper camera placement, efficient Video Management Systems (VMS), and secure remote access.</li></ul>		

## Education

Certified network defender (CND)	Bar Ilan University	Ramat Gan, Israel	2023-2024
<ul style="list-style-type: none"><li>• Cloud Technologies Specialist, Certified network defender.</li></ul>			

## Projects

- [SaZis](#): Designed a resilient and scalable WordPress website and Emulator-JS for web gaming on the AWS Services Platform. Deployed across two strategic regions, Ireland and Ohio, the project capitalizes on key AWS services, including EC2, RDS, EFS, Route 53, ALB , ACM, Lambda, and more.
- [Portfolio](#)  Designed and deployed a Portfolio website using HTML, CSS, and JavaScript. Utilized (IaC) Terraform for infrastructure, AWS S3 for hosting, GitHub for versioning control, and Git Actions for automated deployment.

## Certifications

- Cisco CCNA
- Juniper JNCIA-Junos
- Check Point CCSA R81
- Fortinet NSE (1-3)
